Portfolio: <https://malak-portfolio-2026.surge.sh>

PROFILE

Software Developer specializing in full-stack web development, .NET, REST APIs, and enterprise applications. Experienced in building and supporting scalable solutions across the full SDLC, with hands-on expertise in C#, ASP.NET Core, React, Node.js, SQL, and Microsoft Entra ID. Proven experience delivering secure, production-ready systems and integrations in enterprise and aviation environments.

PROFESSIONAL EXPERIENCE

Software Developer | Gulf Air (via Computer World) — Muharraq, Bahrain

Aug 2025 – Sep 2026

- Developed several full-stack applications using C#, .NET, React, TypeScript, and SQL.
- Built Station Data Hub and GAA Simulator Training System for station operations and simulator management.
- Developed CFMS and RIO, supporting crisis management, family matching, flight-delay follow-up, and operational workflows.
- Contributed to the IOC, supporting flight monitoring, disruption management, and operational workflows.
- Developed a .NET MAUI tablet application for interactive aircraft seat maps and cabin crew workflows.
- Built CMC Crew Card Generation and Travel FairSimReg, automating document generation and event registration.
- Integrated Genesys REST APIs, implemented Microsoft Entra ID authentication, and contributed to the Gulf Air Sager Chatbot.
- Supported the full SDLC, including development, testing, deployment, and production support.
- Collaborated with stakeholders to develop and maintain secure enterprise applications aligned with operational requirements.

Software Developer Trainee | Arabian Gulf University — Manama, Bahrain

Jul 2025

- Developed backend web components using PHP and Laravel, gaining hands-on experience in structured web application development.
- Developed and evaluated PDF data extraction and processing workflows for parsing unstructured document content.
- Applied software engineering, debugging, and relational database techniques to support academic systems.

ACADEMIC & INDEPENDENT PROJECTS

FlightOps Executive — Graduation Project

- Network operations platform with live flight tracking, executive KPIs, disruption monitoring, and fleet & route management.
- Tech: ASP.NET Core, Razor Pages, SignalR, EF Core

Globify.bh — University In-House Project

- Full-stack web application with dynamic interfaces, workflow management, and database functionality.
- Tech: Laravel Livewire, PHP, Tailwind CSS, Flux UI, SQLite

GarageFlow — Multi-Tenant Garage SaaS

- Multi-tenant automotive management platform covering vehicle scheduling, job cards, inventory, invoicing, and reporting.
- Tech: Django REST, PostgreSQL, React, TypeScript, Celery, Redis, Docker

Finance Tracker — Personal Project

- Finance management application for budgeting, expense tracking, categorization, and visualization.
- Tech: React, TypeScript, Node.js, PostgreSQL

EDUCATION

Bachelor of Information & Communication Technology

Sep 2021 - Jan 2026

Major in Programming | Bahrain Polytechnic, Isa Town, Bahrain

PROFESSIONAL SKILLS

Full-Stack Software Development, Backend & API Development, REST API Integration, Database Management, Authentication & Authorization, Third-Party System Integration, Workflow Automation, Software Testing & Debugging, Troubleshooting, Requirements Analysis, SDLC, and Technical Documentation.

TECHNICAL SKILLS

Languages: C# · Go (Golang) · Python · TypeScript · JavaScript · SQL · PHP · Swift

Frameworks & Libraries: .NET 8/10 · ASP.NET Core · React · Node.js · Django · Django REST Framework · .NET MAUI · Laravel · Livewire · Blazor

APIs & Backend: RESTful APIs · API Architecture · Entity Framework Core · Django ORM · Celery · Genesys APIs · Azure APIs

Databases: PostgreSQL · SQL Server · MySQL · SQLite · Oracle · Redis

Tools & Platforms: Git · GitHub · Docker · CI/CD · Microsoft Entra ID · PowerApps · Kiro IDE · Linux

CERTIFICATIONS & LANGUAGES

Certification: Microsoft Power Platform Developer Associate

Professional Development: Go Software Engineering Program — Reboot 01 Institute · Kiro IDE Agentic Coding Session — 2026 · Comply365 Seminar — 2026

Languages: Arabic — Native · English — Full Professional Proficiency
